ai chatbot. Certifications: certification in communication,leaning,adaptability,programmming.. Skills: programming,c,c++,r,python,communication. Educational: be.cse. SREC 2023. Experience: worked in ebay for 2 years. (2018)

Tutorial for Data Mining Applications:

This is a tutorial to use data mining at the web, with a bit of Python to implement it. The first part of the class will be a small python test you will be doing for a lot of the projects. The next part will be a small python test that you will be doing for your own site.

===== COVER LETTER =====

Write a short, professional cover letter for seran applying for a Data Analyst role. Highlight the skills: programming,c,c++,r,python,communication. Make it polite and concise. Write your resume in good English and use an email address to send it to a potential mentor. Use this for mentoring.

The three or four year term will be considered to be the most exciting.
